DETAILED ACTION

Response to Amendment

1. Upon a review of claim 31, previously indicated allowable, some indefiniteness was found as set forth below. Claims 1 and 13, as amended, are now allowable and rejection is withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 33-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 33 recites “a search engine” that is “capable of performing Q search tasks” and “a scheduler” that schedules a search process “in a manner such that no more than Q search tasks are scheduled for any search task period.” This claim is confusing because if the search engine is capable of performing a certain number of tasks, it is only natural that no more than the certain number of tasks can be performed. For this reason, it is not understood what exactly what is performed “to schedule a search process for each of a plurality of known codes by selecting a respective plurality of search task periods.”

Claims 34- 41 are rejected for the same reason due to dependence.

Allowable Subject Matter

4. Claims 1-3, 5-32,42 are allowed.

Art Unit: 2634

5. Claims 33-41 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
